Module 2	April 22nd – June 26th
Module 3	August 03rd – October 07th
Module 4	October 14th – December 18th

Brazilian Portuguese & Culture Program
To successfully integrate exchange students, we offer a Brazilian Portuguese and Culture Program. It provides essential Portuguese language training and deep cultural immersion, actively fostering an inclusive international community that ensures your students adapt smoothly and thrive in Brazil.

Each module takes 10 weeks to complete.
Students may choose two modules per semester.

Module-Based System Explanation: At Inteli, courses are organized into a module-based system, where the curriculum is divided into thematic units called modules. Each module focuses on a specific subject or skill area, allowing students to build knowledge progressively throughout the academic year.

Quarterly Structure: The academic year is divided into four quarters. In each quarter, students take one or more modules depending on their program. Flexibility: Students can choose between alternatives depending on their interests or seat availability.

Practical Approach: Modules are designed to combine theoretical learning with hands-on projects, enabling students to apply concepts in real-world scenarios. This modular system promotes focused learning, flexibility, and practical experience, supporting students in developing skills that are directly applicable to their future careers.

MODULES IN ENGLISH – 2026		
1st Quarter (Feb-Apr)	Module 5	Cloud Computing Services
2nd Quarter (Apr-Jun)	Module 10	Hyperscalable Applications
2nd Quarter (Apr-Jun)	Module 6	Business Intelligence Systems for Decision-Making
3rd Quarter (Aug-Oct)	Module 3	Logic for Prediction with Artificial Intelligence
4th Quarter (Oct-Dec)	Module 8	Integration, Management, and Big Data Analysis

Note: The modules available in English vary each year.

INSTRUCTIONS AND DEADLINES

Nomination Process

- | Students must first be officially nominated by their home institution.
- | Nomination Deadline for 2026: 5th December 2025

Credit System

- | Each module consists of 200 in-class hours.
- | The PBL methodology includes guided self-study, research, and group work, effectively doubling the total workload.
- | In one semester, students complete two modules, each involving a project with a partner company.
- | Total workload per semester: approximately 30 ECTS credits.

Language Requirements

- | Language Requirements A formal language proficiency certificate is not mandatory, but we recommend at least a B2 level of English
